

The Key to Integration

for Kids and Teenagers

Who we are

allegra! das Sprachenzentrum – the school for learning German as a foreign language.

From the very beginning we set ourselves the target to help people from other nations learning the German language. In this way the school, which is headed by two former secondary school teachers, assists the students integration in Switzerland.

We have preserved the basic ideas of the OEKOS course programme, at the same time broadening the contents of the syllabus, enabling us to adapt our courses to the current requirements of the Swiss school system and society.

Teaching materials

In the German Language classes we work with the official course books Pipapo 1 & 2. These text books are produced by the inter-cantonal centre for teaching material. Their aim is to teach children to communicate in the German language, making it possible for them to follow lessons in normal school classes after a period of twenty weeks.

Regarding mathematics, our teachers work with the official materials for elementary and secondary school. This ensures that the children quickly gain a foothold in the Swiss education system as well as in everyday life.

The focus of our course

Our main concern is to provide our students with an education in the German language which enables them to integrate **as quickly and effectively as possible**.

Timetable

Zeit	Monday	Tuesday	Wednesday	Thursday	Friday
08.15 - 09.00	D	D	D	D	D + G/M
09.05 - 09.50	D	D	D	D	D + G/M
